

NETSUITE ERP

Complete ERP to Run Your Business

Organizations today demand financial management solutions that are flexible enough to accommodate dynamically changing business needs. NetSuite ERP enables organizations to manage IT costs, optimize accounting efficiency, streamline order management and procurement processes, eliminate manually-intensive spreadsheet-based reporting, and improve employee productivity.

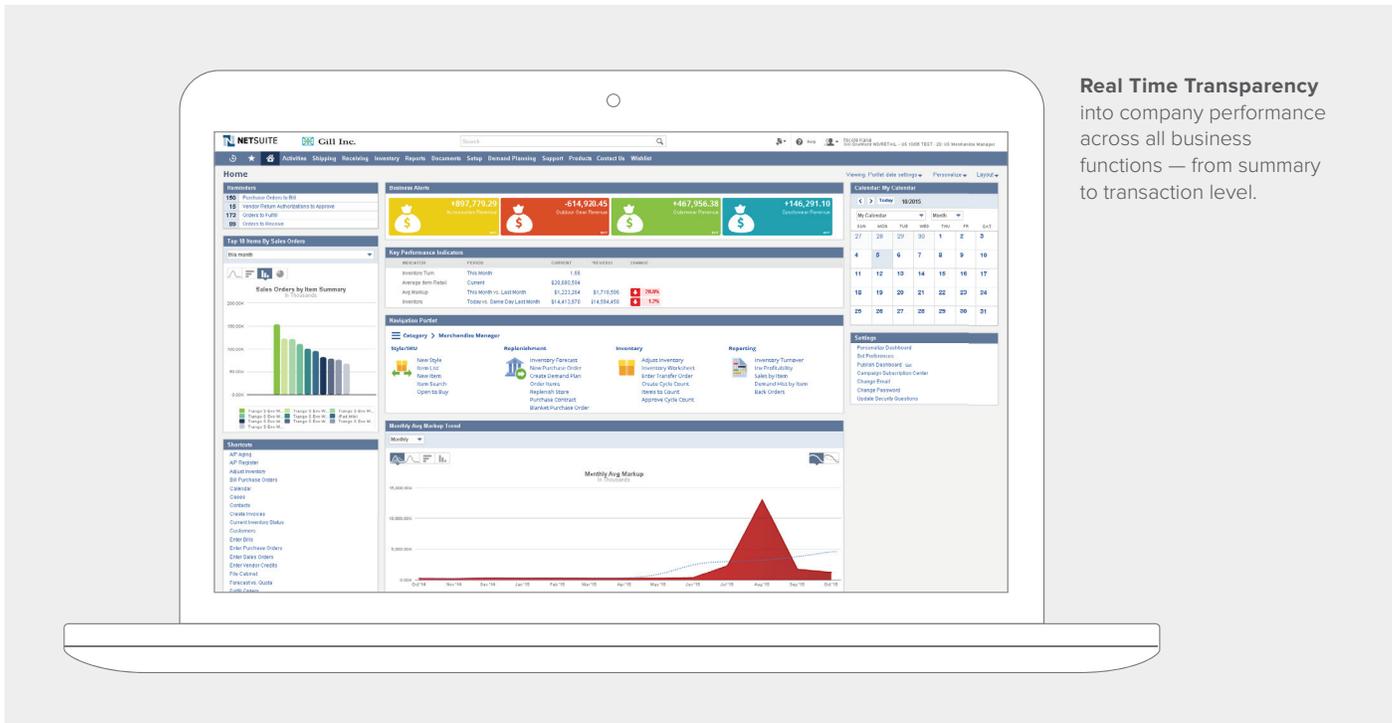

Benefits experienced by organizations using NetSuite include¹:

- Reduced IT costs by 50% or more
- Accelerated financial close by 20%-50%
- Cut order-to-cash cycle by 50%+
- Reduced audit preparation time by 50%
- Reduced invoicing costs by 25%-75%

Key Benefits

- **Improved financial operations efficiency and productivity** with a single, integrated system to handle all core processes for users anywhere in the world.
- **Timely financial close** centralizing management of all period-end close activities to reduce time and resources spent investigating and resolving errors.
- **Ongoing compliance** with revenue recognition, tax requirements and financial reporting in accordance with various accounting standards and government regulations.
- **Real-time visibility** to see consolidated financial results for any part of the business at a summary level, and all the way down to the underlying transactional details.

Real Time Transparency into company performance across all business functions — from summary to transaction level.

- Reduced days sales outstanding (DSO) by 10%-20%

Solution Highlights

Comprehensive Accounting and Finance

NetSuite ERP provides you with everything you need to establish efficient processes and gain transparency into business operations. In addition to standard general ledger functionality, flexible workflow tools to customize your processes and multi-currency support, NetSuite also delivers:

- End-to-end visibility into your receivables and payables with integrated order-to-cash (i.e. sales order, billing, collection) and procure-to-pay (i.e. requisition, purchase order, invoice) transaction management.
- Inventory fulfillment and costing from factory-to-store with supply chain management capabilities.
- Complete fixed asset lifecycle tracking and reporting from acquisition to depreciation to retirement.
- Support for project accounting and reporting on project financials and profitability.
- Automatic revenue recognition in accordance with accounting standards using flexible scheduling and sophisticated allocations.
- Full-service payroll processing, including support for time tracking, incentive compensation and expense reimbursement.
- Integrated budgeting and forecasting tools to manage financial projections against actuals.
